Mr. Stills. I apologize for the malfunctioning first disc. We will send you and Sharon Cunningham another full set of the discs.

Our response to your FOIA request was shared with CDPHE because CDPHE is the State agency implementing the federal CERCLA program at the Lincoln Park Superfund Site, and the communication concerns the Site.

Steven

Subject: EPA-R82013-003355

Dear Mr. Moores,

On August 11, 2014, I received a letter purporting to be a response to the expedited FOIA request EPA-R82013-003355. The first DVD is damaged and cannot be read, despite attempts to do so on multiple computers. Please resend.

Please note that the request was made by Ms. Sharyn Cunningham on behalf of CCAT, and all responsive records must be sent directly to Ms. Cunningham. I do appreciate the courtesy copy where potential litigation of this FOIA matter has been discussed with multiple EPA counsel.

Also, the response was copied to the Colorado Attorney General. Please advise as to the reason and authority for providing a copy of the FOIA letter to a Lincoln Park PRP. It seems highly unusual, at best.

Thank you,
Travis Stills

cc: Wendy Blake, EPA Office of General Counsel
